Hoe om dit te gebruik

How to get the most out of this free sample

1. Druk / Print
   A4 or US Letter at 100% / "actual size". Thick paper or 200–250 gsm card feels best in small hands.

2. Kies jou kant / Pick your sides
   Print fronts only, or print double-sided and flip on the long edge so each back lines up with its front.

3. Knip / Cut
   Cut along the dotted lines. Laminate or pop them in card sleeves if they will live in the toy box.

Lay out four cards. Say a word in Afrikaans and let your child point to it. Swap roles: they say it, you point (and sometimes get it wrong on purpose).

Geheuespel
Memory game

Print two sets of fronts, shuffle them face down and take turns finding pairs. Say each word out loud when you flip it.

Skattejag
Treasure hunt

Hide five cards around the house. Each one found gets said, acted out or matched to something real.

Woord van die dag
Word of the day

Stick one card on the fridge. Use the word at dinner and at bath time. Tomorrow, a new one.

Wenk / tip

Like it? The full packs have all 26 letters, numbers to 20, colours, shapes and posters, in this same style.

Woorde verskil van streek tot streek. If your family says it differently, use your word: that is the one your child should hear.
